SUBJECT : EBC Requirements for Wire-Filed Copy

1. Forwarded herewith are copies of EBC requirements for FBIS wire-filed copy for your editorial guidance in selection of material for filing to Caversham. Particular attention is invited to the EBC definition of point-to-point material which is not wanted, and to the attached list of Far East and Latin America copyright or otherwise restricted transmissions covered by FBIS which are not wanted by the EBC.

2. EBC urgently requested that the strictest possible adherence be given these requirements consonant with full coverage in the interest of wordage limitation. The volume of traffic filed by FBIS to Caversham has exceeded the capacity of EBC's communication facilities and Bureaus are therefore directed to comply with the EBC requested.
